

AGI-COS Full Series Overview

English Translation

Version Lineage, Public Disclosure Boundaries, and Reading Paths for Civilizational Immunity and Open-Future Protocols

Item	Information
Document ID	CL-AGICOS-SERIES-ZH-v1.0-PUB
Version	v1.0 Website Public Edition
Status	PUB Website Public Edition
Author	Zijun Fu
Produced by	Civilization Leap Research Group
Official website	https://www.civitas.top/en/
Contact email	zijunfu@civitas.top
Date	May 2026

AGI analyzes. Humans decide. Civilization adapts.

This document forms part of the publicly available website materials for the AGI-COS full series. It publicly explains the role, boundaries, version relationships, and further-reading paths of the Civilizational Immune System. It does not constitute authorization to govern, engineering deployment instructions, a military interface, a law-enforcement interface, or a resource-allocation plan.

Document Information and Copyright

Item	Description
Document title	AGI-COS Full Series Overview
Framework	Civilization Leap theoretical framework CL-AGICOS AGI-COS governance protocol layer
Purpose	An overview document for the AGI-COS full-series feature page, presenting the version lineage, public-facing entry points, and disclosure boundaries.
Disclosure boundaries	Principles, framework positioning, boundaries, and further-reading paths are public; high-risk interfaces for automated governance, military use, law enforcement, personal surveillance, and resource dispatch are not disclosed.
Copyright and licensing	© Zijun Fu / Civilization Leap Research Group. Public citations should identify the author, document title, version, and official website.
Suggested citation	Zijun Fu. AGI-COS Full Series Overview. Civilization Leap Research Group, 2026.
Edition note	Website Public Edition: for display on the official website, download, circulation, and connections to further reading.

Important Boundary Statements

- AGI-COS is not a government. It possesses no legislative, executive, law-enforcement, or coercive authority.
- AGI-COS does not make decisions, set societal goals, or determine resource allocation.
- AGI-COS must not become a personal surveillance system. It does not track individuals or build personal profiles.
- AGI-COS serves only as a framework for cognitive assistance, risk measurement, reminders of boundaries, and protection of an open future.

Reading Guide

Questions Addressed

- Why does civilization need to move from crisis response to civilizational immunity in the AGI era?
- Where does AGI-COS fit within the Civilization Leap framework?
- How can a Civilizational Immune System be prevented from drifting into a system of civilizational control?
- How do the versions in the full series evolve from 1.0 to Ω and $\Omega+$?
- The AGI-COS full series is not a single document. It is a version lineage extending from crisis response, stability upgrades, and civilizational immunity through post-AGI stability and interstellar coordination to perpetual civilization.

Intended Readers

- Researchers in AI governance, safety, and policy;
- Technical teams, institutions, and public decision-makers concerned with AGI's effects on humanity's long-term existence;
- Readers who have already read Civilization Leap: The Path of Civilization in the AGI Era (All Five Volumes), Civilizational Perpetuity, or the Civilization Leap White Paper for the AI Era;
- Readers seeking to understand the fundamental boundary: "AGI analyzes. Humans decide. Civilization adapts."

1. Overall Position of the Full Series

The AGI-COS full series belongs to the AGI governance protocol layer of the Civilization Leap theoretical framework. It does not replace political institutions, market institutions, social organizations, or human judgment. Instead, it provides civilization in the AGI era with a framework for risk sensing and protecting an open future that can be publicly discussed, reviewed, constrained, and iteratively improved.

2. Public-Facing Display Order

Display order	Document / module	Purpose
1	Executive Brief	A quick entry point for institutions, policy stakeholders, and international coordination partners.
2	AGI-COS Core Collected Edition 2.0-CE	The principal public entry point to the full series.
3	Limitation Charter for the Civilizational Immune System LC-1.0	A boundary document to prevent the system from drifting into control.
4	Version lineage 1.0 → Ω+	Explains the evolution from crisis response to long-term civilizational continuity.
5	Global Submission Kit	A submission package for international organizations, research institutions, and governance collaboration.
6	Methodology for Handling Crises and Problems in the AGI Era	Crisis classification, authorization, life cycles, standard intervention, and recovery protocols.
7	Further-reading framework	The Anti-Closure Principle, the Common Window Protocol, Civilizational Perpetuity, and Volume IV and the final volume of the five-volume main sequence.

3. Version Lineage at a Glance

Version	Stage	Core keywords	Public status
AGI-COS 1.0	Crisis response	Human sovereignty, reversibility, anti-closure	PUB / Historical foundation edition
AGI-COS 1.1	Stability upgrade	Perception Audit Layer, pre-deployment protocols, compatibility certification	PUB / Stability upgrade edition
AGI-COS 1.2	Ecosystem resilience	Cognitive-load optimization, adversarial defense, social resonance	REVIEW / Supplementary edition
AGI-COS 2.0 / 2.0-CE	Civilizational Immune System	Continuous sensing, micro-interventions, MEU, Limitation Charter	PUB / Main entry point
AGI-COS 2.1	Global coordination	First-mover safety architecture, dual-track adoption	REVIEW / Coordination layer
AGI-COS 2.2	Technical interfaces	API standards, ethical protocols for micro-interventions	INTERNAL / High-risk interface details are not publicly disclosed
AGI-COS 3.0	Stable post-AGI civilization	Meaning layer, Human Agency Layer, civilizational evolution layer	PUB / In-depth reading edition
AGI-COS 4.0	Interstellar coordination	Distributed sovereignty, light-speed governance, AI lineage control	REVIEW / Long-term edition
AGI-COS 4.1	Civilizational resilience	Shadow inheritance, entropy constraints, low-tech anchors	REVIEW / Resilience supplement
AGI-COS Ω	Perpetual civilization	Existence monitoring, meaning regeneration, non-terminal intelligence	PUB / End-stage protocol layer
AGI-COS Ω^+	Dynamic eternity	Constructive entropy, guardian recursion, the sacredness of the unknown	REVIEW / Far-future philosophical layer

4. Public Disclosure Boundaries

- Public: concepts, principles, boundaries, indicator frameworks, version relationships, and further-reading paths.
- Disclose with caution: crisis methodology, governance sandboxes, compatibility certification, and risk classification.
- Do not publicly disclose details concerning military use, law enforcement, autonomous weapons, personal surveillance, resource dispatch, coercive enforcement, or adversarial attacks.
- Every version must present “AGI analyzes. Humans decide. Civilization adapts.” as its public-facing principle.

5. Recommendations for the Website Feature Page

Suggested feature-page title: AGI-COS Full Series | Civilizational Immunity and Open-Future Protocols. The page should provide six entry points together: Quick Introduction, Core Collected Edition, Limitation Charter, Version Lineage, Crisis Methodology, and Further-Reading Paths, rather than displaying only a single PDF.

Further-Reading Guide

Direction	Recommended content
Upward reading	Overview of the Civilization Leap Five-Volume Main Sequence; Civilizational Perpetuity; Immortality of Meaning
Reading at the same layer	AGI-COS Full Series Overview; Limitation Charter for the Civilizational Immune System; Methodology for Handling Crises and Problems in the AGI Era
Cross-framework reading	The Anti-Closure Principle; the Common Window Protocol; Civilization Leap White Paper for the AI Era
Downward reading	Future reading may extend to governance sandboxes, public draft standards, risk classification, and review protocols; high-risk implementation mechanisms are not publicly disclosed at present.
Boundary cross-check	Resource-pool details, militarized simulations, law-enforcement interfaces, and personal-surveillance interfaces are not offered as public further-reading entry points.
